Version	Date	Description of changes	Approval
1.0	-	-	-
2.0	25 September 2026	Comprehensive revision of cookie disclosures, consent management, cookie categories, retention periods, third-party technologies and user controls.	Yes

This Cookie Policy explains how SALFO uses cookies and similar technologies on salfo.gr, the choices available to visitors and how consent may be given or withdrawn. It should be read together with the Privacy Policy.

1 Scope and purpose

This Cookie Policy applies to cookies and similar technologies used on the Website operated by SALFO AND ASSOCIATES S.A. It forms part of the information provided to Website visitors and does not replace the Privacy Policy.

2 What cookies and similar technologies are

Cookies are small text files stored on your device. Similar technologies, including tags, pixels, local storage and software development tools, may perform comparable functions. They can support essential website operations, remember choices, protect forms and measure how the Website is used.

3 How consent works

Strictly necessary technologies may operate without consent where they are required to provide a service requested by you or to maintain the security and basic operation of the Website. Analytics, preference, advertising and other non-essential technologies are activated only after you have made an affirmative choice through the cookie banner or preference centre. Merely continuing to browse, scrolling or remaining on the Website does not constitute consent.

You may accept all non-essential technologies, reject them or make a category-by-category choice. Refusing consent does not prevent access to the Website's general content. You may withdraw or change your choice at any time

through the Cookie Settings link made permanently available on the Website. Withdrawal does not affect processing that took place lawfully before withdrawal.

4 Technologies currently used

The following schedule reflects the technologies identified on the Website as at the effective date. The exact cookies set may vary according to your device, browser, choices and the pages or functions you use. The live preference centre should be kept aligned with the Website's current technical configuration.

Technology or cookie	Provider and purpose	Category and consent	Typical duration
cookie_notice_accepted	SALFO / Cookie Notice plugin. Records whether the cookie notice has been acknowledged and helps retain the selected consent status.	Strictly necessary consent record. No separate consent required.	30 days
_ga	Google Analytics 4. Distinguishes users and supports aggregated measurement of Website usage.	Analytics. Set only after consent.	Up to 2 years
_ga_G1FWWGQ7HK	Google Analytics 4. Maintains session state and measurement information for the Website's GA4 property.	Analytics. Set only after consent.	Up to 2 years
Google reCAPTCHA identifiers, which may include GRECAPTCHA and related Google cookies	Google. Helps protect forms from spam, abuse and automated submissions and may process device, interaction and network information.	Security / third-party functionality. It should be loaded only where necessary for a user-requested form or, where required, after consent.	Up to 6 months or as determined by Google

5 Google Analytics

Where you consent to analytics, the Website uses Google Analytics 4 to generate statistical information about visits, such as pages viewed, approximate location, device and browser characteristics, referral source and interaction events. SALFO uses this information to understand and improve the Website. Google acts as a service provider for analytics and may also process information in accordance with its own terms and privacy documentation. IP-related data should be handled using the privacy controls available for GA4, including data minimisation and appropriate retention settings.

6 Google reCAPTCHA

The Website uses Google reCAPTCHA in connection with forms to distinguish genuine users from automated activity. reCAPTCHA may analyse technical and interaction data and communicate with Google systems. It should not be deployed across pages where it is not required. Where its operation is not strictly necessary for a service expressly requested by the user, it must remain disabled until valid consent has been obtained.

7 Browser controls and deletion

Most browsers allow you to view, block or delete cookies. Browser-level blocking may affect features that rely on cookies and does not replace the Website's consent controls. For instructions, consult the help pages of your browser. Deleting cookies may also delete the record of your preference, in which case the cookie banner may be displayed again.

8 International data transfers

Some third-party technology providers may process data outside the European Economic Area. Where personal data are transferred internationally, SALFO relies on an applicable adequacy decision or other safeguards recognised under Chapter V of the GDPR, such as the European Commission's standard contractual clauses, together with supplementary measures where required. Further information is available in the Privacy Policy and from dpo@salfo.gr.

9 Changes to this Cookie Policy

We may update this Cookie Policy to reflect changes in the Website, the technologies used, applicable law or our practices. The version and effective date shown in the document-control table identify the current edition. Material changes will be communicated through an appropriate notice on the Website.

10 Contact

Questions about this Cookie Policy or SALFO's use of cookies and similar technologies may be sent to dpo@salfo.gr
General enquiries may be sent to info@salfo.gr.
